### Questions from the Membership

1. Who is responsible for snow removal off the pathway in the ravine?

The City of Calgary is responsible for the maintenance and snow removal on this pathway system. Any questions or concerns may be directed to 311.

2. Who is responsible for the trees along the centre medians and boulevards?

The City of Calgary is responsible for the maintenance of most trees in the community. The exceptions would be those on private residential property or the spruce trees behind the stone walls on the north and east perimeters of the community. Any questions/concerns may be directed to 311.

3. Can anything be done about the noise and activity happening at the West Ridge School parking lot and sport court well into the night?

The Association does not have any control or affiliation with this venue, but Tyler indicated he would reach out to the school administration to determine if there's anything that can be done to deter this.

Meeting was adjourned at 8:30pm.
